Norwell, MA 02061

Re: Drainage and/or Resurfacing Town Ways

Dear Board Members:

Please note that the Highway Department will begin drainage improvements and/or resurfacing work to the following roads:

Prospect Street (Jacobs Lane to Grove Street)	Captain Vinal Way
Circuit Street	Black Pond Hill
Pine Street	Riverside Drive
Common Street	Samuel Woodworth Road
Barque Hill Drive	Till Rock Lane
Brigantine Circle	
Grove Street (Bay Path Lane to Wilder)	

Work shall commence at 7:30 a.m. pending weather conditions. As with any work/resurfacing project, there will be times during these activities that there may be some disruption to the motoring public and abutting residents, the Norwell Highway Department in conjunction with the Norwell Police Department will do everything possible to limit the disruption and expedite the project as efficiently as possible. These roads will be open to residents, school buses, and emergency equipment. Alternate routes should be sought if possible.

Just a reminder, road cuts are not allowed in newly resurfaced roads. There is a five (5) year moratorium on these roads with the exception of an emergency situation.

If you have any questions, please do not hesitate in calling my office.

Very truly yours,

Paul M. Foulsham
Highway Surveyor
